

EcoPalHD

the corrugated pallet

one tonne ultra strong all fibreboard

- up to one tonne static and transit loading*
- bespoke application range available
- suitable for racking and roller conveyors
- flat-decked and printable
- lightweight and easy-handling
- no contamination, splinters or nails – unlike wooden pallets
- completely recyclable and environmentally friendly
- general purpose – interleaving, consumables, export
- no export certification required

* for uniform load distributions

TWO OR FOUR-WAY ENTRY

For lighter load applications see our standard EcoPal range of fibreboard pallets.

Corrugated Recycles

EcoPal^{HD}

the corrugated pallet

heavy duty... suitable for many applications

- food industry – where contamination is a concern
- pharmaceutical – where wooden pallets are undesirable
- airfreight – where weight is a critical cost factor
- export – where restrictions apply to the use of wood
- conveyors – where the pallet is integral to the production/packing line
